ABOUT ME

I am an aspiring Full-Stack Web Developer. I have an experience in developing, deploying and maintaining responsive, functional websites with Reactjs, Nodejs and some other libraries and frameworks. My objectives are to be able to utilize the skills and knowledge gained in my training for continuous improvement and contribute to the needs and advancement of the organization. I am available for any kind of job opportunity that suits my profile.

PROJECTS

- [Link to my E-Commerce Website](#) - Developed an e-commerce web app made with ReactJS for front-end, designed and laid out using Bootstrap/React-Bootstrap and MUI hosted in Vercel and used the back-end RESTful API from Heroku.
- [Link to my REST API](#) - Constructed an API for back-end server using NodeJS, Express, and performed CRUD Operations using MongoDB hosted in Heroku. Implemented JSON Web Token for authentication and Bcrypt for password encryption.
- [Link to my Online Portfolio](#) - Designed a personal site with a creative interface and a few brief notes about me and what I can do and how people can contact me using some features that Bootstrap offers and some advanced CSS.
