---

## EXPERIENCE

### Junior Java Developer | Norima Technologies

MAY 2022 – PRESENT

- Configured UI ensuring designs comply with specifications.
- Conducted software analysis, programming, testing and debugging.
- Attended daily scrum meetings to discuss project accomplishments, progression and requirements.

## PROJECTS

- [Link to my E-Commerce Website](#) – Developed an e-commerce web app made with ReactJS for front-end, designed and laid out using Bootstrap/React-Bootstrap and MUI hosted in Vercel and used the back-end RESTful API from Heroku.
- [Link to my REST API](#) – Created an API endpoints for back-end server using NodeJS with Express JS framework, and performed CRUD Operations using MongoDB hosted in Heroku. Implemented JSON Web Token for authentication and Bcrypt for password encryption.
- [Link to my Online Portfolio](#) – Designed a personal site with a creative interface and a few brief notes about me and what I can do and how people can contact me using some features that Bootstrap offers and some advanced CSS.
