ABOUT ME

Hello my name is Andrei Limuco. I am a passionate full stack web developer. I have an experience in building responsive Web with JavaScript / Reactjs / Nodejs / and some other libraries and frameworks. My core skill is based on JavaScript and I love to do most of the things using JavaScript. I am available for any kind of job opportunity that suits my profile.

PROJECTS

Capstone Projects / Coding Projects

Link to my online portfolio

- Created a personal site with a beautiful interface and a few brief notes about me and what I can do and how people can contact me using some features that Bootstrap offers and some advanced CSS.
- Created a drum kit website using DOM and JavaScript. Add event listeners to buttons and keystrokes to get the corresponding sound of the drum.
- Created an online version of the Simon electronic game using jQuery which creates a series of tones and lights and requires a user to repeat the sequence.
- Built a newsletter web application deployed using Heroku that signs people up to my mailing list via Mailchimp server's API.
- Developed a to-do list using EJS.
